

MEMORANDUM FOR: Messrs. ~~Factor~~/Walsh (info
BP, HR)

Gen. Faurer wants a full-time CIA "analyst"
for the National Military Intelligence Center.
He would like the DCI to name someone as
contact point.

[] says that this is really an
Ops. Center matter--he thinks they're really
after a watch officer, not an analyst. He
recommends that Vince Heyman be the contact
point.

SUBJECT: Intelligence Community Representation in the
1976 National Military Intelligence Center

1. As part of its efforts to improve Department of Defense support to crisis management, the Defense Intelligence Agency is in the process of modernizing the National Military Intelligence Center (NMIC) and relocating it adjacent to the National Military Command Center. Collocation of the prime military intelligence and operations centers within one facility will make this the single point of contact for military aspects of day-to-day, as well as time-sensitive crisis management issues. This improved and collocated facility will have a significantly increased capability to rapidly process all-source intelligence, providing a composite military picture to Joint Chiefs of Staff, Department of Defense and the National Command Authorities. Optimum exploitation of this all-source intelligence could be achieved by the NMIC with a full-time representative from your agency.

2. Facility and equipment plans for the modernized NMIC currently provide dedicated automated analyst stations for the intelligence representatives from the State Department, CIA and NSA. The Initial Operating Capability for the new center is projected for October 1976, however final equipment requirements and refined concepts of operation must be completed in the immediate future.

3. Request that you identify a point of contact to discuss issues relative to your representation in the new NMIC. The Defense Intelligence Agency point of contact is Lt. Col. John R. McIntyre, Jr., USAF, DI-1D, OX-5-2268.
